

# Architecture Scavenger Hunt: Lapham-Patterson House

The Lapham-Patterson House was constructed in 1885 for Emma and Charles Lapham and their family. It was designed by Tudor Rommerdall in the Queen Anne style which was known for its eclectic design. The House is known for its many doors and windows and asymmetrical layout. Can you find all of these features on the house?

The Lapham-Patterson House is made up of many different shapes and patterns. As you explore, keep track of the shapes and how many you find.

## Count On It!

How many doors can you find on the outside of the Lapham-Patterson House?

How many windows can you count on the Lapham-Patterson House?

How many tiles are in the front walkway? How many of each color?
